

Tuukka TIMOTHY

Tuukka Timothy

FEATURES

- Matures about three days earlier than Climax
- High leaf/stem ratio
- Good regrowth characteristics
- Can be mixed with alfalfa

Timothy is the oldest cultivated forage grass in North America. It is highly palatable as well as winterhardy. It performs best in cool, moist conditions. Timothy is well known and preferred in the horse market. It matches well with clovers or birdsfoot trefoil due to its late maturity. The following varieties offered are ranked in the order of maturity.

Tuukka was selected with the serious forage producer in mind.
