INTRODUCING ENDURO 423 AP ALFALFA

Enduro 423 AP is **CISCO** Seeds newest “Go Anywhere” alfalfa variety. Enduro 423 AP is a high forage yielding, good forage quality, sunken crown alfalfa with branch root tendencies. The Enduro 423 AP also has the branch root features which allows it to be more productive in well and poorly drained soils. It was selected for resistance to multiple races of Aphanomyces root rot.

Features:

- Very high forage yield potential
- Resistance to Aphanomyces Race 1, 2, and isolates of Race 3
- Branch root trait
