

Playmaker Mix

FORMULATION

- 80% Turf-Type Tall Fescue (3 elite varieties)
- 10% Turf-Type Perennial Ryegrass (elite variety)
- 10% Kentucky Bluegrass (elite variety)

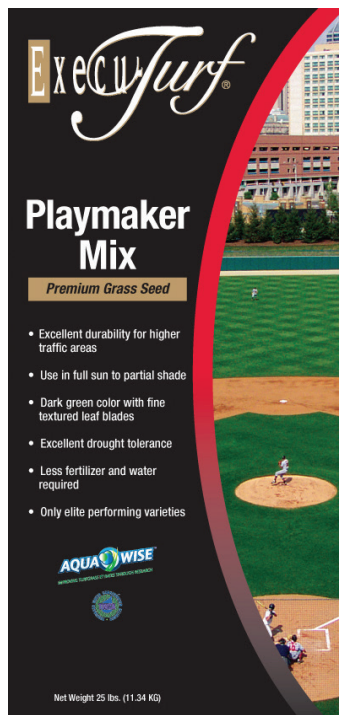

NOTABLE CHARACTERISTICS

- Dark green color
- Fine textured leaf blades
- Excellent durability for high traffic areas
- Excellent drought tolerance
- Deep root structure
- Excellent disease resistance
- Less fertilizer required than for other elite mixes
- Less water required than for other elite mixes
- Use in full sun to partial shade

Playmaker Mix is comprised of beautiful, yet durable Turf-Type Tall Fescue with elite Kentucky Bluegrass and top quality Turf-Type Perennial Ryegrass. There are no “low-end” varieties in Playmaker Mix! All varieties selected for this mixture show good to excellent ratings in NTEP* trials for wear and traffic tolerance and over-all turf quality.

SEEDING RATE

New Lawn 8-10 lbs/1,000 sq. ft. or 425 lbs/A
Overseeding 4-5 lbs/sq. ft.
(Note: only overseed into Athletic mix or tall fescue)

Sunlight needed	Full Sun-Partial Shade
Soil Types	Clay to Sand
Maintenance	Medium
Fertility	Medium
Traffic	Very Good

NOTES ON TURF-TYPE TALL FESCUE:

Turf-Type Tall Fescue is known as a durable, drought tolerant grass that is much more fine bladed than the tall fescues of the past. The improved varieties have a very dark green color and match well with Turf-Type perennial ryegrass and Kentucky bluegrass.

Aquawise cultivars maintain green cover under protracted drought stress, a process which identifies those cultivars with either low water use or extensive root systems.
